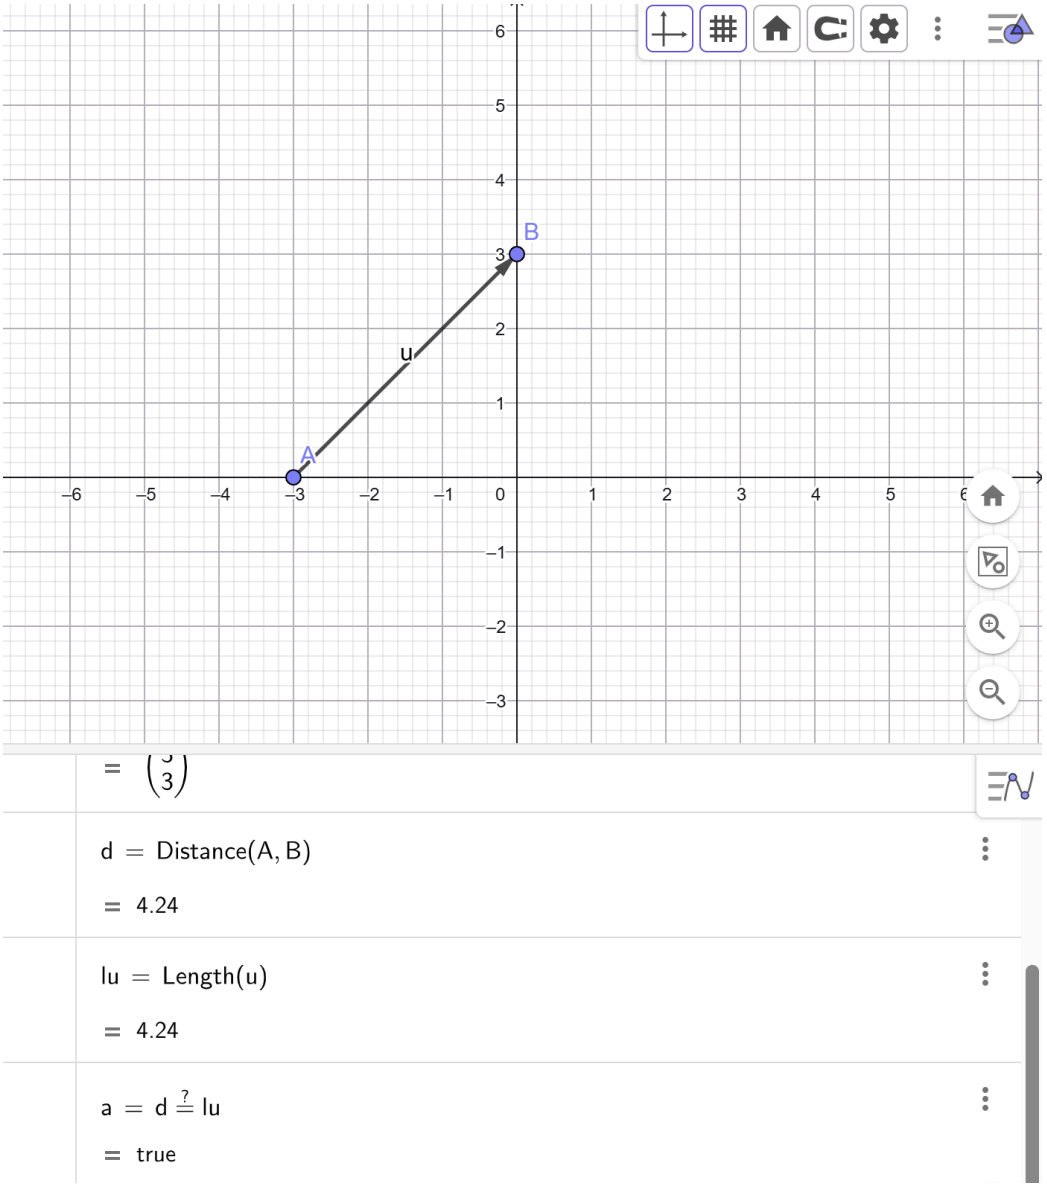
Type	Laboratory
Materials	Lab3.docx
Reviewed	☐

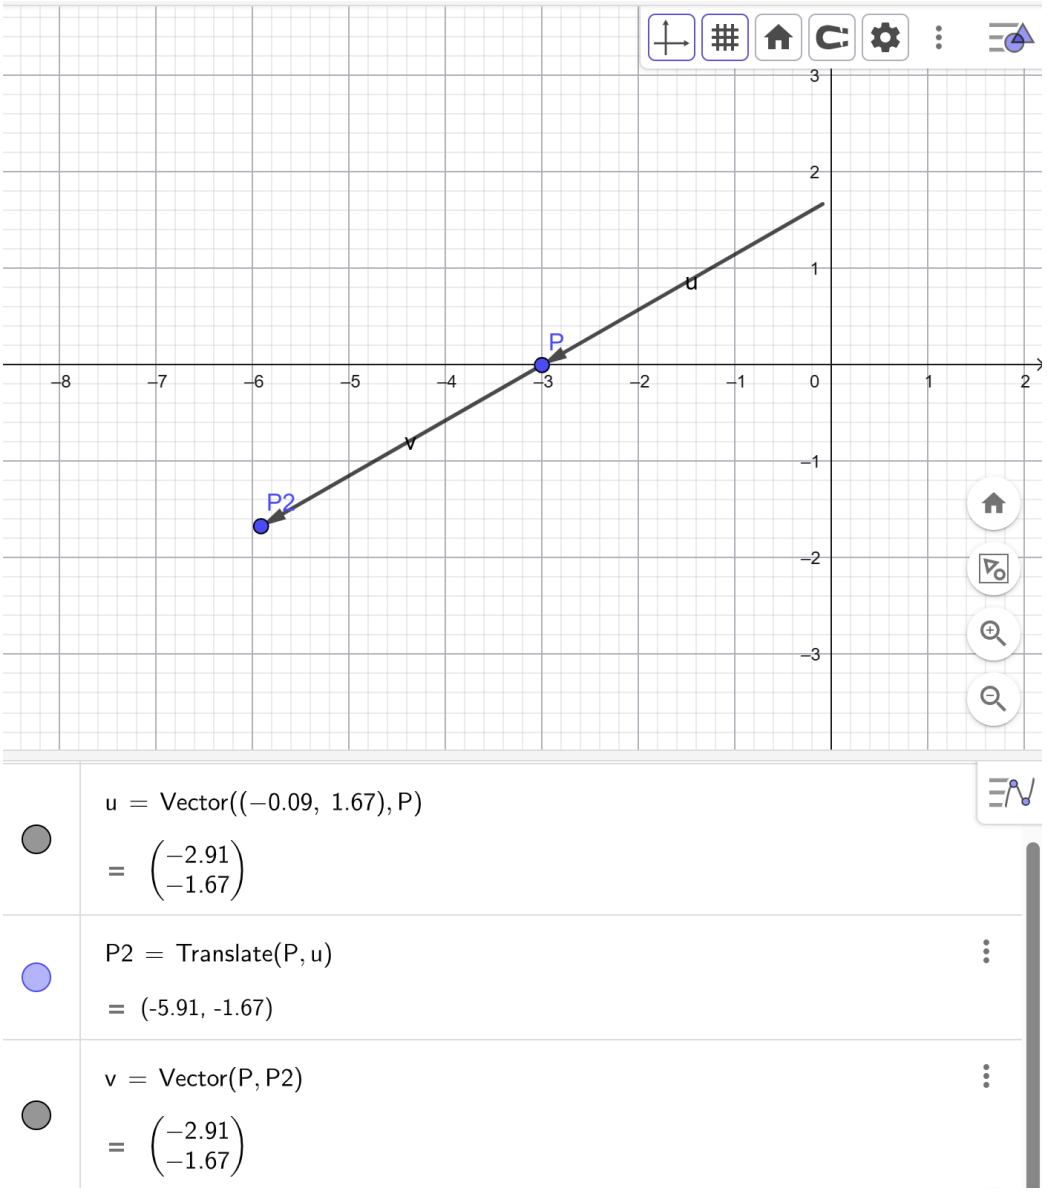
Name	Group	Major
Tanase Vlad Mihai	Group 1 (comes with group 3)	Artificial Intelligence

Exercise 1



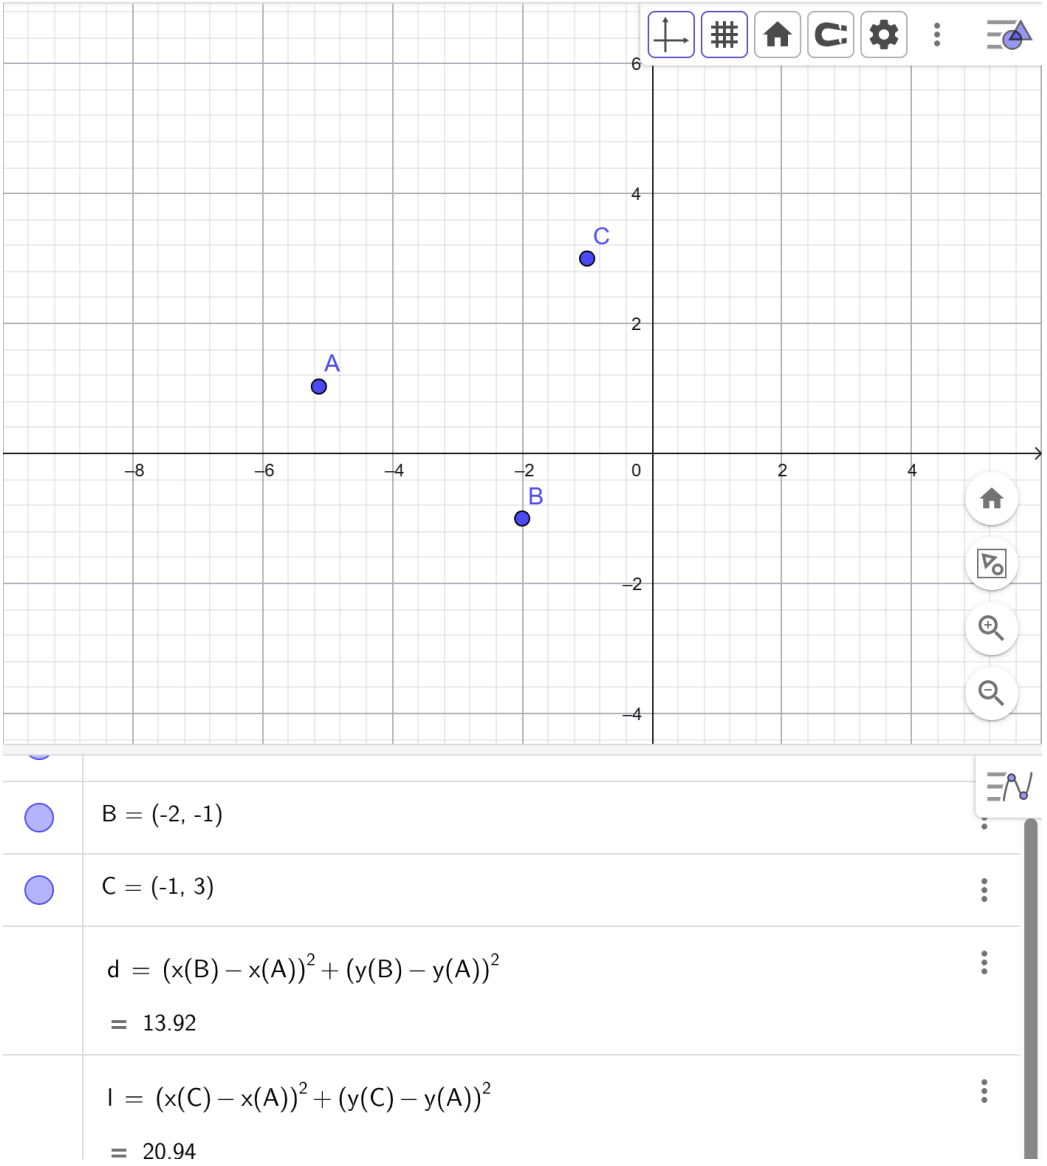
https://www.geogebra.org/classic/f3b3zqgb

Exercise 2



https://www.geogebra.org/classic/sj3beevz

Exercise 3



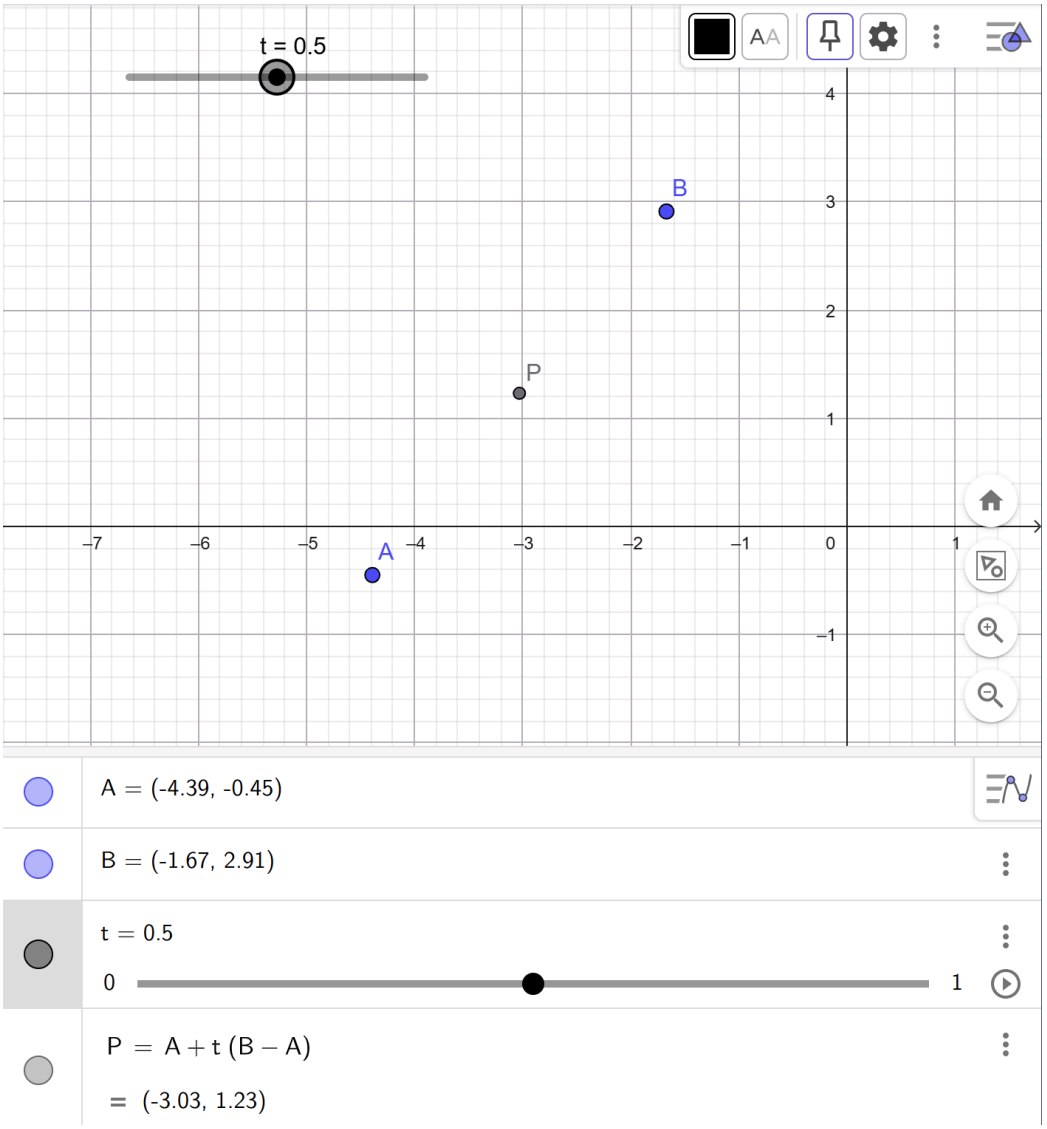
Point B is closer to A because its squared distance

$$d^2$$

is lower.

https://www.geogebra.org/classic/svsffztk

Exercise 4

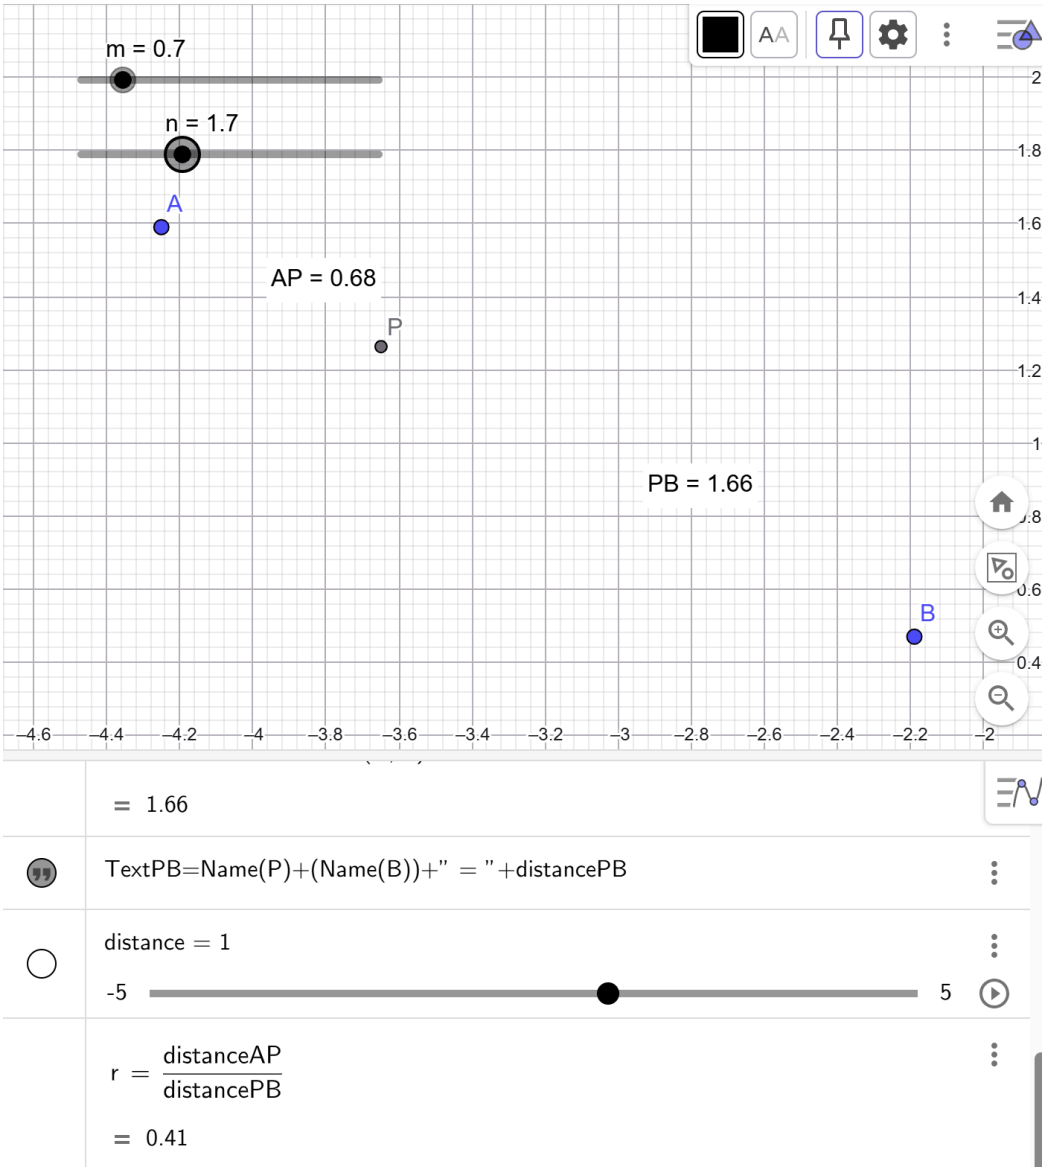


P moves between A and B on an invisible axis formed by the two points.

Slider was extended to [-0.5, 1.5] as well, check link.

https://www.geogebra.org/classic/hjtd3hf2

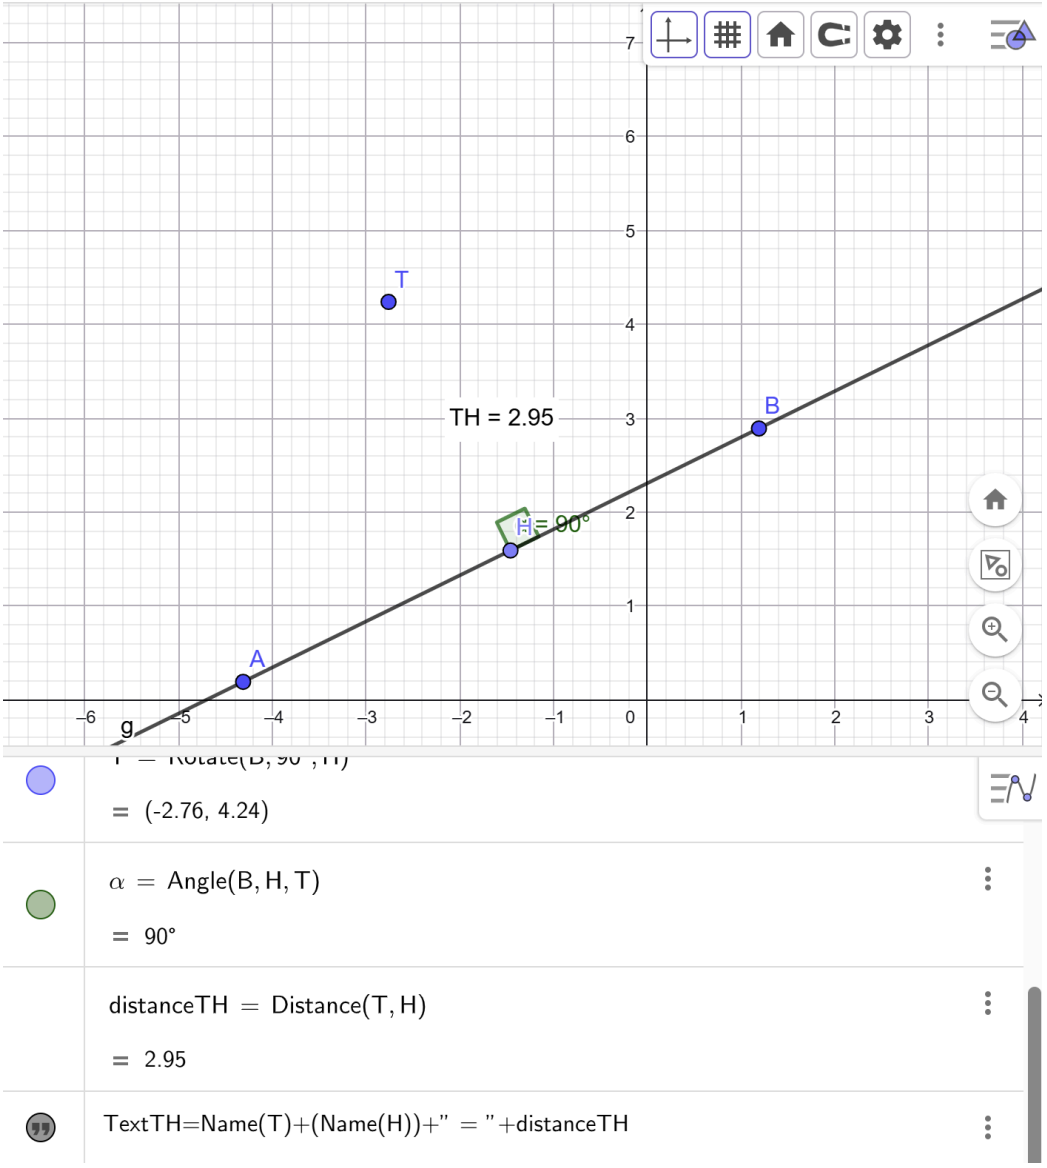
Exercise 5



https://www.geogebra.org/classic/zqhxe5pb

Exercise 6

Exercise 7



Projections are perpendicular to the line so I calculated it this way

https://www.geogebra.org/classic/strkqdtb

Exercise 8

Exercise 9

Exercise 10

Exercise 11

Exercise 12
